

Stainless Steel Escutcheon Plates / Wall Flanges

Features:

- Manufactured in type 304 stainless steel
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- No package qty. required

Certifications and Compliances:

Manufactured in the US

Applications:

Stainless steel Escutcheons are used in conjunction with mechanical, electrical, and plumbing components and fixtures where a pipe, tube, or conduit passes through a wall [or other material] surface. The escutcheon is used to bridge the gap between the outside diameter of the conduit and the inside diameter of the opening.

Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical
- Pulp & Paper Mills
- Marine & Coastal Facilities
- Along with other corrosive environments

Size	Part Number	OD	ID (Hole Dia)	Overall Height	Weight per ea (lbs)
