Mainstream Value

The Breakthrough You've Been Waiting For

WaveStream LED technology presents a new paradigm that will take LEDs mainstream in a way that hasn't been possible before — transforming the LED point source into a highly efficient and elegant luminous plane. It's a groundbreaking technology that delivers unparalleled design freedom, maximum energy efficiency and unrivaled optical and brightness control.

The Science Behind the Beauty

A patented optical coupling process maximizes the amount of light injected into the WaveStream panel, dramatically improving luminaire efficiency. Laser-precise, patented AccuAim optics arranged in exacting patterns provide unparalleled brightness control while delivering optimal distributions tailored to each fixture and application.

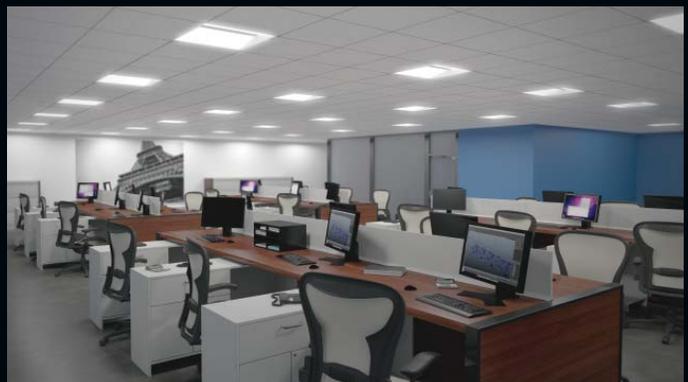

WaveStream is the first lighting technology designed and optimized exclusively for LEDs — with form and function that allows mainstream adoption like never before. Once you factor in all the ways you can build and customize WaveStream lighting solutions, over 500,000 configurations are available to address nearly every major lighting application.

Encounter Series

Performance, uniformity, style. The **Encounter™** Series redefines ambient lighting by blending contemporary styling with innovative WaveStream LED technology. The result is exceptional performance and superior energy savings – all at an affordable price.

The highly efficient LED system with advanced optical design delivers optimal light uniformity, resulting in soft, natural light for superior visual comfort. Encounter is a perfect balance of form and function, making it an ideal choice for commercial interiors.

Innovation you can rely on™

Metalux Encounter Series

Construction

- Recessed: 2' x 2', 2' x 4', 1' x 4' and 1' x 2'
- Metric versions available in all four sizes
- Depth: 3.25"
- Sustainable materials
- cULus damp location / IC Rated
- ROHS compliant
- Five-year warranty

Performance

- High-performance efficacy up to 112 lumens per watt
- Energy savings in excess of 50% compared to traditional fluorescent troffers
- Four Correlated Color Temperatures (3000K, 3500K, 4000K and 5000K) at typical 85 CRI
- 2' x 2': L85 @ 60,000 hrs.; 1' x 2': L86 @ 60,000 hrs.; 2' x 4': L78 @ 60,000 hrs.; 1' x 4': L79 @ 60,000 hrs.
- Binning: Per ANSI, 3-step MacAdam ellipse

Options

- Five stocked lumen packages in two CCTs
 - 2' x 2': 2500 and 3400; 2' x 4': 4500, 5400 and 6700
 - Twenty-seven additional lumen packages offered as MTO
- Universal (120V/277V) or 347V
- Emergency – 700, 1000 and 1400 lumens
- Air vented versions
- Chicago plenum rated version
- Flex wiring configurations
- Surface mount kits

Controls

- Encounter luminaires include 0-10V dimming drivers for control using wall dimmers (10% - 100%), daylighting sensors and Room Controllers from Eaton's Cooper Controls business.
- Encounter can also include a factory-installed integrated sensor system for occupancy and daylight dimming control, with programming and manual controls from an optional handheld remote.
- Encounter luminaires are available with native DALI drivers for complete digital energy management using Fifth Light addressable lighting controls.

Encounter with Sensor

SkyRidge with Sensor

Optional Remote Control

Encounter and SkyRidge Series with Integrated Sensor Controls

Get the best of both worlds. Award winning Metalux Encounter and SkyRidge luminaires with Wavestream LED technology are available with an optional integrated sensor system, optimized to meet energy codes for occupancy sensing and daylight harvesting. The sensor system is factory wired to the luminaire, switching on or off based on occupancy, and dimming the light when enough daylight is available, offering out-of-the-box operation using thoughtful default settings. When the application demands more, the sensor system has an optional remote control allowing changes from the default settings for occupancy, target light level, preset lighting levels, and to temporarily override automatic controls.

Energy Savings

Operating and maintenance costs of a lighting system are dramatically impacted by the specified lamp source and electrical system. Total system input watts and fixture operating life should be the driving considerations when addressing energy consumption and total cost of ownership. Energy savings increase when energy consumption is reduced and maintenance intervals are extended.

WaveStream LED technology provides industry-leading, energy-efficient performance. With a patented LED coupling, optimized thermal management and proprietary AccuAim™ optics, the Encounter Series provides uniform illumination and superior efficacy. Encounter luminaires offer three color temperature choices with a wide range of lumen packages to provide best-in-class, breadth-of-line with efficacy reaching as high as 106[†] lumens per watt.

SkyRidge Series

Elegant, efficient, affordable. The **SkyRidge™** Series sets a new industry standard by offering a stylish and affordable LED alternative to fluorescent fixtures. Patented WaveStream LED technology provides unmatched levels of optical performance and energy efficiency at a compelling price, enabling large-scale adoption.

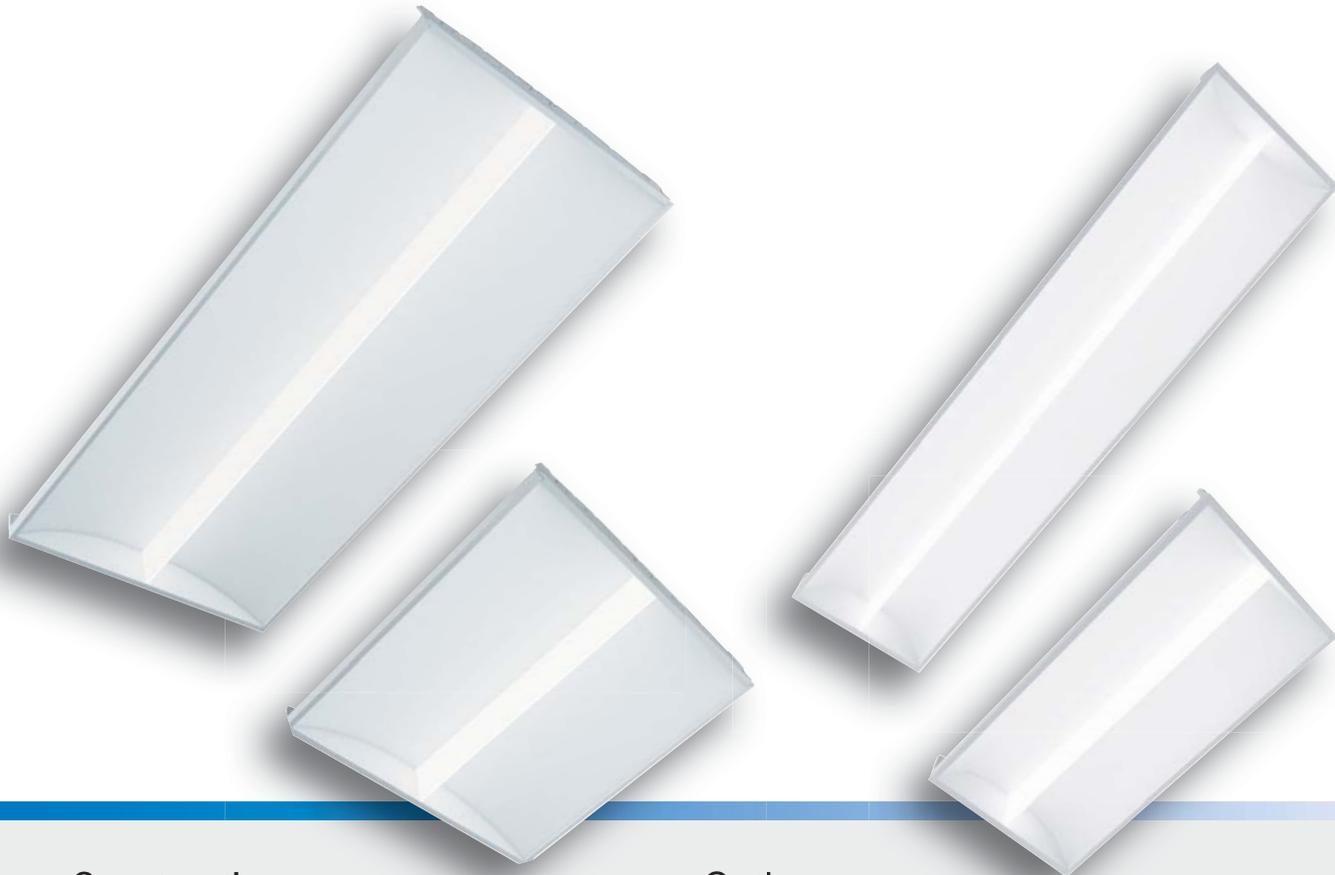

SkyRidge delivers a distinct blend of technology and beauty, making it the natural choice for today's commercial environments.

Innovation you can rely on™

Metalux SkyRidge Series

Construction

- Recessed: 2' x 2', 2' x 4', 1' x 4' and 1' x 2'
- Depth: 4.75"
- Two reflector choices: curved and rectilinear
- Sustainable materials
- cULus damp location / IC Rated
- RoHS compliant
- Five-year warranty

Performance

- High-performance efficacy up to 131 lumens per watt
- Energy savings in excess of 50% compared to traditional fluorescent troffers
- Four Correlated Color Temperatures (3000K, 3500K, 4000K and 5000K) at typical 85 CRI
- 2' x 2': L84 @ 60,000 hrs.; 1' x 2': L81 @ 60,000 hrs.
2' x 4': L85 @ 60,000 hrs.; 1' x 4': L82 @ 60,000 hrs.
- Binning: Per ANSI, 3-step MacAdam ellipse

Options

- Four stocked lumen packages in two CCTs
 - 2' x 2': 2000 and 2900; 2' x 4': 3900 and 4800
 - Four additional lumen packages offered as MTO
- Universal (120V/277V) or 347V
- Emergency – EL (700), EL10W (10W) and EL14 (1400) lumens
- Air-vented version
- Chicago plenum rated version
- Flex wiring configurations
- Surface mount kits

Controls

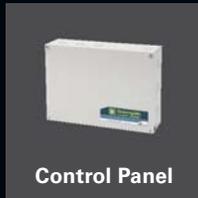

- SkyRidge luminaires include 0-10V dimming drivers for control using wall dimmers (10% - 100%), daylighting sensors and Room Controllers from Eaton's Cooper Controls business.
- SkyRidge can also include a factory-installed integrated sensor system for occupancy and daylight dimming control, with programming and manual controls from an optional handheld remote.
- SkyRidge luminaires are available with native DALI drivers for complete digital energy management using Fifth Light addressable lighting controls.

Greengate Solutions

Greengate lighting controls from Eaton's Cooper Controls business integrate easily with both the Metalux SkyRidge and Encounter Series. Both luminaires include standard 0-10V continuous dimming drivers for easy and flexible integration with lighting control panels, occupancy sensors, daylighting controls and room controllers. Greengate lighting control products combine energy-savings and maintenance-free technology to deliver the most reliable, cost-effective energy management solutions on the market.

Energy Savings

Operating and maintenance costs of a lighting system are dramatically impacted by the specified lamp source and electrical system. Total system input watts and fixture operating life should be the driving considerations when addressing energy consumption and total cost of ownership. Energy savings increase when energy consumption is reduced and maintenance intervals are extended.

SkyTrim Decorative Accent for SkyRidge

Designed for an array of interior applications, **SkyTrim™** is a luminous decorative accent that can be mounted directly on the light guide of a SkyRidge fixture. A co-extruded high-grade optical acrylic strip, less than 0.5" deep, the SkyTrim provides a simple means of applying color to an existing or new fixture. It is ideal for spaces where color is necessary to provide visual cues, emphasize brand identity, directional awareness or simply as an artistic expression. The result is a unique and easy accessory for addressing a wealth of application needs with seven color choices and hundreds more with custom color options.

Features and Benefits

- Flexible use of color for identification, awareness or artistic purpose in space
- Seven standard color choices with custom color options
 - Tahitian Blue
 - Primary Green
 - Storaro Orange
 - Pearl
 - Belladonna Rose
 - Medium Red
 - Straw
- Offered in both 2' and 4' lengths
- Factory or field installable
- Simple installation; no hardware or tools required
- High-grade optical acrylic
- Minimal 0.45" depth

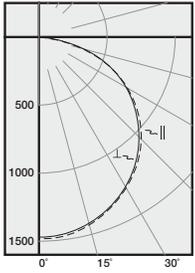

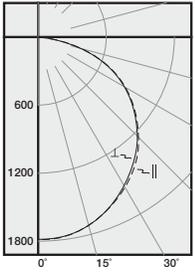

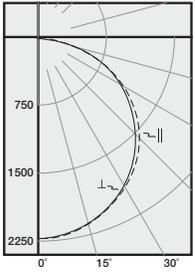

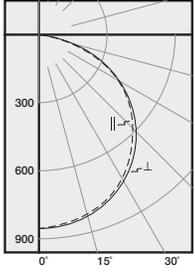

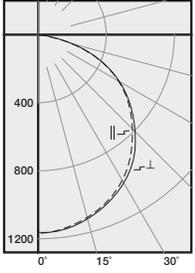

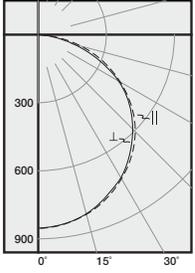

Suggested Applications

- Healthcare: wayfinding, paths of egress
- Education: school colors, space identification, pathways
- Sport Venues: team colors, zone/activity identification
- Retail: highlight merchandise, traffic influencer, customer checkout/service area identification
- Corporate Facilities: department identifiers, campus coding, branding, awareness
- Hospitality / Event: color coordination by activity, customer colors or holidays

Fifth Light brings energy savings, control and addressability to Metalux luminaires

The future of lighting lies in smart controls in combination with smart lighting fixtures. From private offices to large-scale building management systems, Eaton's Cooper Controls business has a fully integrated solution for any project. Their Fifth Light brand offers a complete line of digital addressable control products to ensure two-way communication with every component in a building. Fifth Light hardware consists of multi-sensors, user interfaces, personal controls, ballasts, drivers and more.

A wide array of software options integrate with VOIP phones, computers, tablets and mobile phones for complete control at your fingertips.
