# EMS -15

## Portable Ceramic Mini Salamander Heater

Small size, big warmth - when and where it matters!

The EMS-15 is a powerful, yet easily portable, ceramic, personal space heater that fits anywhere! This compact electric space heater is small, yet delivers just the right amount of heat in seconds. The EMS-15 operates quietly, making it perfect for almost all indoor applications like on tabletops or under desks, at home, in the office or even in the garage. This mini salamander-type heater is lightweight, making it easy to carry and transport, and even easier to operate. Heater features multiple modes and functions so temperature control is always at your fingertips.
